

## CONTENTS

Preface .....	8
<i>Jan Acedański</i> Factor shares and income and wealth inequalities .....	9
<i>Aleksandra Baszczyńska</i> Nonclassical kernel functions in kernel procedures of statistical inference.....	19
<i>Justyna Brzezińska</i> Rasch models in eRm package in R .....	29
<i>Marek A. Dąbrowski, Justyna Wróblewska</i> Has exchange rate flexibility of the Polish zloty been conducive to shock absorption?.....	39
<i>Ewa Genge</i> A longitudinal study of Polish emigration attitudes: a latent Markov model approach.....	49
<i>Ján Gogola</i> Modelling mortality rate of the very old .....	58
<i>Monika Hadaś-Dyduch</i> Polish macroeconomic indicators correlated-prediction with indicators of selected countries .....	68
<i>Przemysław Jaśko</i> Statistical arbitrage – critical view .....	77
<i>Daniel Kosiorowski, Mateusz Bocian</i> Functional classifiers in management of the Internet service .....	87
<i>Daniel Kosiorowski, Damian Tracz</i> Robust estimators for Pareto and lognormal distributions in income inequalities evaluation.....	98
<i>Daniel Kosiorowski, Dominik Mielczarek, Ewa Szlachetowska</i> Clustering of functional objects in energy load prediction issues.....	108
<i>Marta Kuc</i> The use of Markov chains in the social convergence analysis.....	118
<i>Viera Labudová</i> Household consumer expenditure inequality in Slovakia .....	127
<i>Katarzyna Łęczycka</i> Quality evaluation of the model-based forecasts of implied volatility index .....	136

<i>Michał Milek</i>	
Detecting structural changes in the time series in the use of simulation methods .....	145
<i>Monika Papież</i>	
Is it possible to successfully forecast the real price of crude oil at short horizons?.....	154
<i>Barbara Pawelek, Jadwiga Kostrzevska, Artur Lipieta</i>	
The problem of outliers in the research on the financial standing of construction enterprises in Poland .....	164
<i>Radosław Pietrzyk, Paweł Rokita</i>	
Lowering costs of private retirement by sharing of life-length risk within a household .....	174
