

## CONTENTS

|  |     |
|--|-----|
| Preface .....  | 8   |
| <i>Adam P. Balcerzak, Michał Bernard Pietrzak</i>  |     |
| Structural equation modeling in evaluation of technological potential of European Union countries in the years 2008-2012 .....                               | 9   |
| <i>Jacek Bialek</i>  |     |
| A comparison of alternative proxies for the Fisher price index .....   | 19  |
| <i>Marek A. Dąbrowski, Justyna Wróblewska</i>  |     |
| Exchange rate regime and sensitivity to economic and financial shocks in Central European countries .....  | 26  |
| <i>Iwona Foryś, Radosław Gaca</i>  |     |
| Theoretical and practical aspects of qualitative variable descriptions of residential property valuation multiple regression models.....                     | 36  |
| <i>Monika Hadaś-Dyduch</i>   |     |
| Econometric-wavelet prediction in spatial aspect .....   | 45  |
| <i>Pavla Jindrová, Monika Papoušková</i>   |     |
| Modelling insured catastrophe losses.....  | 53  |
| <i>Maria Klusek</i>  |     |
| Taxonomic analysis of the demographic situation in Poland in the context of regional economic development in sub-regional system in the years 2004-2012..... | 62  |
| <i>Jadwiga Kostrzewska, Maciej Kostrzewski, Barbara Pawełek, Krzysztof Gałuszka</i>  |     |
| The classical and Bayesian logistic regression in the research on the financial standing of enterprises after bankruptcy in Poland .....                     | 72  |
| <i>Natalya V. Kovtun, Anzhela I. Ignatyuk</i>  |     |
| Quantitative measurement and modeling of globalization of companies and markets .....  | 82  |
| <i>Tomasz Kuszeński, Agata Sielska</i>   |     |
| Energy poverty of Polish farms? .....  | 92  |
| <i>Marta Małecka</i>   |     |
| Spectral VaR test statistical properties .....   | 102 |
| <i>Zinaida Palian, Anna Tishchenko</i>   |     |
| Modern political views of Ukrainian population: statistical evaluation and analysis .....  | 110 |

|  |     |
|--|-----|
| <i>Michał Bernard Pietrzak, Adam P. Balcerzak</i>  |     |
| Assessment of socio-economic sustainability in new European Union members states<br>in the years 2004-2012 ..... | 120 |
| <i>Dominika Polko-Zajęc</i>  |     |
| Application of the permutation test for comparing regression models .....  | 130 |
| <i>Agnieszka Przybylska-Mazur</i>  |     |
| Application of selected dynamic model to the analysis of the impact balanced budget rule<br>on the economy ..... | 139 |
| <i>Angelina Rajda-Tasior</i>   |     |
| Comparing population distributions with censored data in area of complaints .....                                | 149 |
| <i>Adam Sagan, Aneta Rybicka, Justyna Brzezińska</i>   |     |
| Conjoint analysis based on Thurstone judgement comparison model in the optimization of<br>banking products ..... | 159 |
| <i>Victor Shevchuk, Roman Kopych</i>   |     |
| German fiscal austerity and its spillovers on the Central and East European Countries .....                      | 169 |
| <i>Slawomir Śmiech, Monika Papież</i>  |     |
| It is possible to use gold and WTI to protect portfolio loses?.....  | 179 |
| <i>Erik Šoltés, Tatiana Šoltésová</i>  |     |
| Occurrence of low work intensity in Slovakia in relation to assessment of poverty<br>and social exclusion .....  | 189 |
| <i>Jacek Stelmach</i>  |     |
| On the dynamics of the correlation between macroeconomic variables based on<br>petroleum raw materials .....     | 199 |
| <i>Piotr Strożek, Maciej Jewczak</i>   |     |
| Information and communication technologies in Poland – Regional Perspective.....                                 | 208 |
| <i>Jadwiga Suchecka</i>  |     |
| The importance of spatial sampling methods for their analysis results – selected issues .....                    | 218 |
